

# Arizona's Cancer Control Programs

A Snapshot of Program Progress

April 2014

*Health and Wellness for all Arizonans*

# Arizona Cancer Control

- Arizona Cancer Coalition
- Visit [azcancercoalition.org](http://azcancercoalition.org)
- Work Group Formation
- Enhance Collaboration
- Reduce Arizona's Cancer Burden

# Work Groups

- Survivorship
- Policy
  - Tobacco Focus
- Research
  - Clinical Trial Participation
  - Network Analysis
- Prevention
  - HPV Immunization Work
- Treatment
- Early Detection and Screening
  - Increasing Screening Rates
- Melanoma

# Collaboration is Key

- There is enough work to do for everyone
- Sharing of Time, Talent and Treasure
- Collaboration not Competition
- Provide the environment to learn to work together

# Well Woman HealthCheck Program

- Provides screening and diagnostics for breast and cervical cancer for uninsured and underinsured women in Arizona
- Program parameters built upon evidence based strategies providing improved outcomes
- Timing and appropriateness of services for all women served is continually monitored

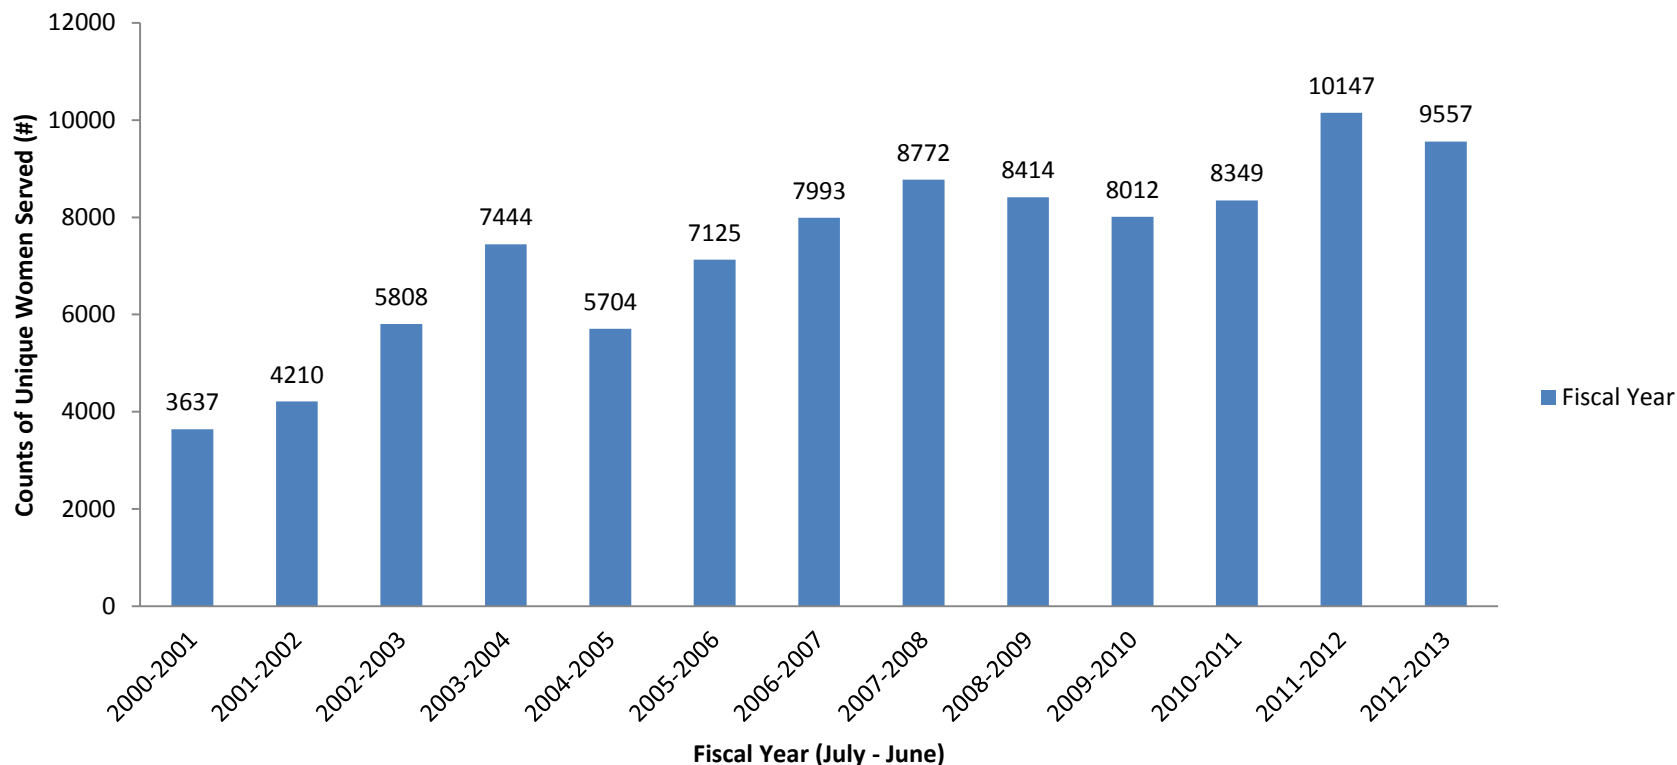

# Performance Based Budget

- Screening Algorithms
- Core Quality Indicators
- Data Submissions
- Program Management
- Evolve the Program
- To Maintain Budget – Straight A Results

# Screening Volume Over Time

## Arizona Well Woman HealthCheck Program Breast and Cervical Cancer Screenings, 2000 -2013

# Breast and Cervical Treatment Program (BCCTP)

- Two Sources
  - Well Woman HealthCheck Program
    - Between 130 and 150 enrolled per year
  - Community Referrals
    - 230 women enrolled since 8.2.12
- Expanded Program is serving Arizona's Families
- Wonderful gift to the women of Arizona

# Fit at Fifty HealthCheck Program

- Colorectal cancer screening and diagnostics for uninsured Arizonans  $\geq 50$
- FIT and colonoscopy
- People with symptoms now eligible
- Screen about 1,500 per year
- 12 cancers found in 2013 and removed several hundred adenomatous polyps

# Treatment?

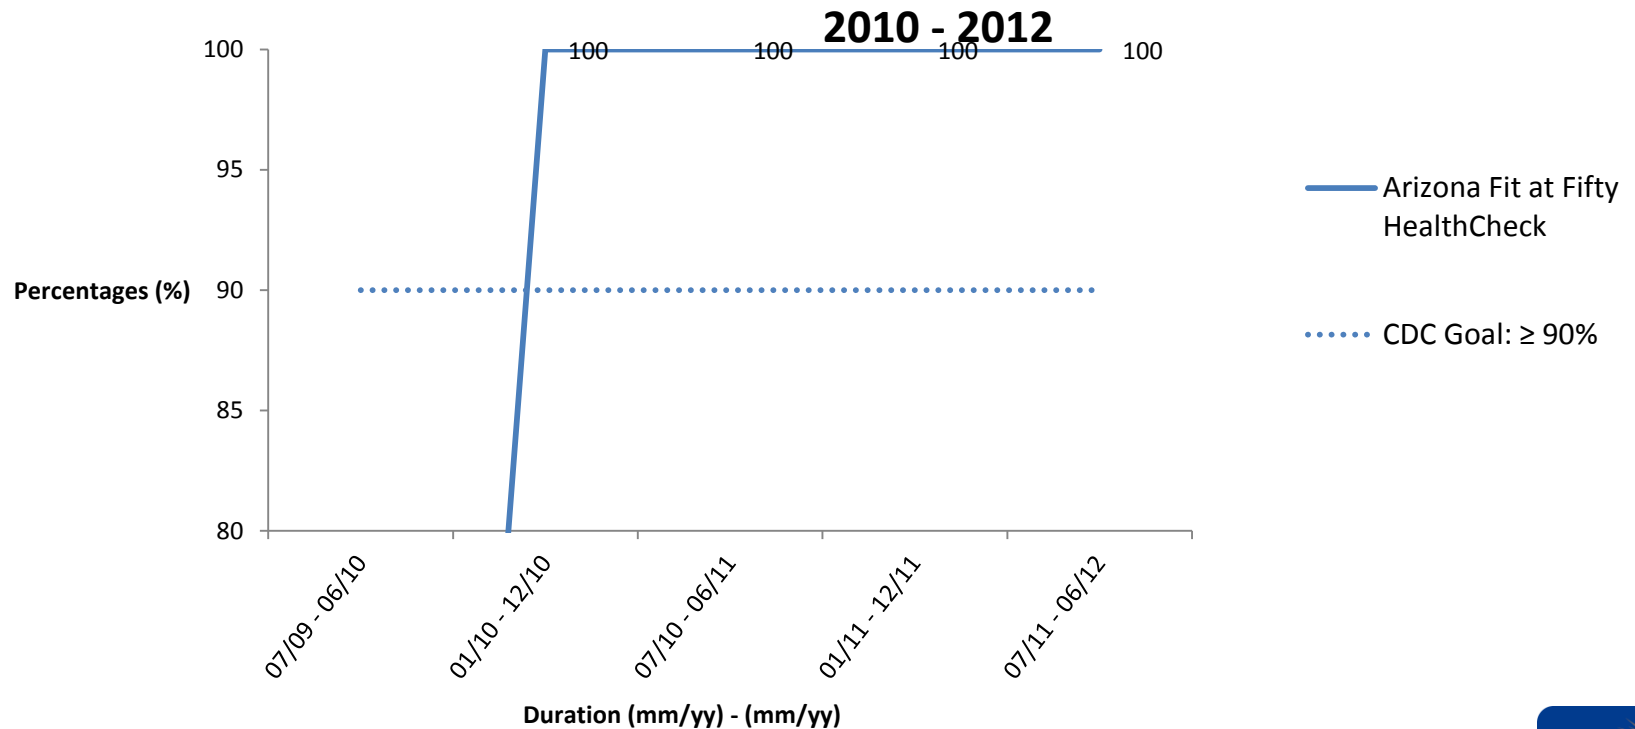

- Private – Public Partnership
- Colon Cancer Alliance and ADHS
- Undy 5000
- 50% of profits stay in Arizona
- Of that 50% provides treatment and *now* screening for symptomatic patients

# Quality Monitoring

- Timeliness
- Appropriate service provided
- AGA guidelines followed for surveillance
- CDC Evaluation of data twice per year

# Treatment Initiation

## Core Program Performance Indicator Colorectal Cancer Screenings Treatment Initiation

# Post ACA

- Systems, Policy and Evidence Based Strategies
- Using national infrastructure to support quality improvement
  - Timeliness
  - Appropriateness
  - [Evidence Based Strategies](#)
- Continue to screen remaining uninsured
- Increase screening rates for all to Healthy People 2020 goals

# My usual walking photo...

# The only constant is change . . .

# Thank You
